Education

Vellore Institute of Technology (VIT-AP)

Bachelor of Science in Computer Science (GPA: 8.68 / 10.0)

Amaravathi, India

Expected May 2026

- Secured Rank 2673 out of 200,000+ applicants in AP EAMCET (Top 1.3 percentile).
- Focus: Artificial Intelligence, Machine Learning, and Embedded Systems.

Experience

Technical Lead Intern (VULCAN Autonomous EV)

Sept 2024 – Aug 2025

VIT-AP University

Amaravathi, India

- Architecting a university-level autonomous EV focusing on **Sensor Fusion (LiDAR, Radar, Cameras)** and real-time control systems.
- Engineered road-offset detection algorithms using **Computer Vision**, achieving **95% precision at 30 FPS** for stable navigation.
- Secured **500,000 (5 Lakhs+)** in government grants and official recognition for technical innovation and project leadership.

Software Development Engineer (SDE) Intern

Jan 2024 – Aug 2025

Prayana (EV-Bike Rental Platform)

Remote

- Developed **scalable backend architecture** and microservices using **Python and Flask**, managing complex ride-management workflows.
- Implemented a real-time bike tracking system by integrating **GPS hardware modules** with central APIs, ensuring <1s latency.
- Optimized **SQLite** database schemas for **scalable systems**, improving query performance for high-frequency logs by 30%.

Projects

POTECH: Brain-Computer Interface (BCI) | Python, Signal Processing, ML

Jan 2025 – Present

- Developed a real-time EEG acquisition system using **ESP8266** and neural electrodes for mental health monitoring.
- Designed an embedded signal processing pipeline, achieving **85% inference accuracy** for device control commands.
- Integrated ML models to translate neural signals into hands-free home automation triggers.

AI Meeting Summarizer & Transcription | Python, OpenAI Whisper, LLMs, SQLite

2024

- Built a tool that automates meeting transcription using **Whisper AI** and generates structured meeting minutes using **LLMs**.
- Implemented a local storage layer using **SQLite** for secure, private handling of sensitive meeting audio and text.

Hackathons

- Smart India Hackathon 2025:** University Finalist (Hardware Category).
- MSME 5.0 Hackathon 2025:** Idea-phase Winner (Neurotechnology Prototype).
- CS Quest (Unstop):** Hosted Ultimate CS Quiz Challenge with Microsoft Chapter.

Technical Skills

Languages: Python, Java, SQL.

Libraries: NumPy, Pandas, Seaborn, Scikit-learn, OpenCV, MediaPipe, Matplotlib.

Frameworks: PyTorch, TensorFlow, Flask, FastAPI, Hugging Face, LLMs, REST APIs.

Tools/Core: Git, System Design, CI/CD, Testing, OOPS, DSA, Scrapy, CARLA Simulator, Sensor Fusion.

Soft Skills: Leadership, Problem Solver, Team Collaboration, Analytical Thinking, Communication.

Certifications

- Stanford Online & DeepLearning.AI:** Machine Learning Specialization.
- Google Developers:** AI using TensorFlow (Developer Certificate).
- Oracle Certified:** 2025 Certified Generative AI Professional.
- Microsoft Certified:** Azure AI Fundamentals.

Leadership & Achievements

- Student Director:** Unstop Campus Ambassador Program (Sept 2024 – Present).
- AIR 525:** All India Rank 525 in UCEED 2022 (IIT Entrance for Design).
- AP EAMCET:** Rank 2673 (Top 1.3 Percentile) out of 200,000+ applicants.
- Club Captain:** Rotaract Club of VIT-AP University (Sept 2024 – Present).
