Education

Vellore Institute of Technology

Bachelor of Science in Computer Science (GPA: 8.68)

Expected May 2026

Amaravathi, Andhra Pradesh

Sri Chaithanya

Intermediate education (Percentage: 91.9)

2020-2022

Andhra Pradesh

Sri Chaithanya

Xth grade (Percentage: 96)

2020

Andhra Pradesh

Experience

KANVA - New GEN A.I. Technology - SRIPTO(Startup) | Python,SQLite, Flask, Data Encryption Jan 2024 - June. 2025

- Engineered 90% of the backend in Python, ensuring high performance and scalable architecture.
- Improved backend data retrieval speed by 40 percent by optimizing database queries using efficient data structures.
- Designed and optimized core features including avatar generation, noise cancellation, and user identification.

Prayana | SDE Internship

Jan 2024 - Aug. 2025

- Developed backend features for the EV-bike rental platform using Python and Flask for user operations and ride management.
- Built a real-time bike availability and tracking system using GPS modules and API integration.
- Designed and optimized SQLite databases for rentals, users, and maintenance logs to improve data performance.

Projects

POTECH- Bridging between Brain and Technology | C++,Python,Signal Processing,ML

Jan 2025 - Present

- Developed an EEG-based brain computer interface using ESP8266 and electrodes for real-time signal acquisition and mental health monitoring.
- Implemented a full signal-processing pipeline with embedded C++ for onboard preprocessing, achieving 85 percent accuracy.
- Built Python + ML algorithms for home automation, enabling device control using brain signals.

VULCAN : Self Driving EV Car, VIT-AP | Computer Vision, Sensor Fusion(Lidar, Radar)

Sept 2024 - Present

- Leading technical development of a university-level self-driving EV, focusing on sensor integration and control systems.
- Designed real-time road offset detection algorithms using computer vision with 95% precision at 30 FPS.
- Received government recognition and secured grants exceeding 5 lakhs for the project.

Technical Skills

Languages: Python, Java

ML& AI: Machine Learning, Deep learning, TensorFlow, PyTorch, OpenCV, MediaPipe, Pandas, NumPy, Matplotlib

Web Development: HTML, CSS, Flask, Web Scraping (BeautifulSoup, Scrapy)

Additional: Data Structures and Algorithms (DSA), SQLite, Data Encryption, Secure Authentication, CARLA

Achievements

- Selected as a **Student Director** in the Unstop Campus Ambassador Program.
- Secured **Rank 2673** out of 2 lakh+ applicants in the AP EAMCET.
- Secured **All India Rank 525** in UCEED 2022.

Certifications

- Machine Learning Specialization from Stanford Online and Deeplearning.ai.
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional.
- Microsoft Certified: Azure AI Fundamentals.
- Artificial Intelligence using Google TensorFlow Powered by Google Developers .

Positions of responsibility

Unstop Campus Ambassador: Student Director of VIT-AP from Unstop Campus Ambassador Program.(Nov. 2024 - Present)

Club Captain and Joint Director : Rotaract Club of VIT- AP University (Sept. 2024- Present)
